WHATEVER IT TAKES.

BOSS Heavy Equipment is made to do Whatever It Takes to handle heavy amounts of snow and ice. With better reliability, strength and performance, you can take on winter's toughest battles with the quality and durability you've come to know from BOSS. We engineer our products to help you get back to bare pavement. Innovating and testing to help you RESTORE ORDER.

TWO-YEAR LIMITED WARRANTY

All BOSS snowplows and equipment are guaranteed to be free from defects in material and workmanship for two full years from the date of purchase. Stop by any authorized BOSS Dealer to receive complete details on our two-year parts and labor warranty. Please visit bossplow.com for more details.

LEGAL STATEMENT

Vehicles intended to be equipped with a spreader and/or snowplow must comply with the vehicle manufacturers' specifications for equipment application. BOSS Products, a division of The Toro Company, reserves the right under its product improvement policy to change construction or design details and furnish equipment when so altered without reference to illustrations or specifications used herein. BOSS Products may be protected by one or more patents; please see bossplow.com for more details.

To comply with federal regulations and to ensure a safe vehicle, do not exceed the front gross axle weight rating (FGAWR), rear gross axle weight rating (RGAWR), gross vehicle weight rating (GVWR) or maximum vehicle payload ratings at any time. Combinations of equipment such as snowplows and spreaders, density of material being spread and the number of vehicle occupants should be taken into consideration. Ensuring these limitations are not exceeded may require weighing the vehicle and adding ballast as necessary. For receiver hitch-mounted products, do not exceed hitch rating at any time. Completed vehicle must not exceed front GAWR, rear GAWR or GVWR.

Enhance the power, performance and durability of your BOSS product with Genuine BOSS Parts & Accessories.

SK BOX PLOWS

POWER WITH EVERY PUSH.

BOSS SK box plows are designed to bring power and versatility to your skid steer. The SK box plow turns your heavy equipment into snow clearing machines.

LEARN MORE

ADJUSTABLE HEAVY-DUTY TRIP SPRINGS

FLOATING ATTACHMENT SYSTEM

AGGRESSIVE ATTACK ANGLE MOVES SNOW AND REDUCES RESISTANCE

STANDARD FEATURES

High-Efficiency Moldboard features a 70-degree attack angle that “rolls” the snow and reduces resistance.

Bolt-On Wing Design allows quick and easy replacement of wings if damage occurs.

Floating Attachment System provides built-in float and pivot features that optimize plowing performance on uneven, rough surfaces.

SmartShield® features our exclusive epoxy-based primer, which provides one of the toughest and most corrosion-resistant paint finishes in the industry.

1/2" x 6" Durable Steel Cutting Edge delivers outstanding resistance to impact and abrasion.

Adjustable Heavy-Duty Trip Springs are tough, tested and proven in some of the harshest environments.

Heavy-Duty Wing Shoes provide superior wear resistance for long-term durability.

OPTIONAL ACCESSORY

Backdrag Edge Kit

SK-R BOX PLOWS

CUTTING EDGE INNOVATION FOR YOUR SKID STEER.

The SK-R box plows are engineered to handle the worst winter has to offer by bringing BOSS power and performance to your skid steer.

FIXED ATTACHMENT SYSTEM

REVERSIBLE RUBBER CUTTING EDGE

AGGRESSIVE ATTACK ANGLE MOVES SNOW AND REDUCES RESISTANCE

SEE IT IN ACTION

Optional backdrag equipment shown.

STANDARD FEATURES

High-Efficiency Moldboard features a 70-degree attack angle that “rolls” the snow and reduces resistance.

Bolt-On Wing Design allows quick and easy replacement of wings if damage occurs.

SmartShield® features our exclusive epoxy-based primer, which provides one of the toughest and most corrosion-resistant paint finishes in the industry.

1½" x 8" Reversible Rubber Cutting Edge protects surfaces and offers quieter plowing operations.

Fixed Attachment System allows easy attachment to the skid steer attachment plate.

Articulating, Heavy-Duty Wing Shoes maintain pavement contact on uneven surfaces and provide superior wear resistance.

OPTIONAL ACCESSORY

Backdrag Edge Kit

SKID STEER TRIP-EDGE

RELIABLE TRIP-EDGE PERFORMANCE.

BOSS Trip-Edge straight-blade snowplows for skid steers are crafted to move the toughest snowfall and whatever obstacles come with it.

UNIVERSAL SKID STEER ATTACHMENT SYSTEM

TRIP-EDGE TECHNOLOGY

4 ADJUSTABLE TRIP RETURN SPRINGS

STANDARD FEATURES

Trip-Edge Design helps to prevent plow damage when an obstacle is encountered.

Adjustable Trip Springs allow you to customize the trip spring tension.

Cast-Iron Plow Shoes extend the life of the cutting edge.

Reinforced Moldboard increases blade rigidity for increased durability.

Skid Steer Attachment System provides for quick and easy attachment to the skid steer with the added benefit of pivoting to optimize plowing performance on uneven or rough surfaces.

Angle Left and Right using auxiliary hydraulics and in-cab controls to maneuver.

Trip-Edge Design

The base angle, or cutting edge, trips back to protect the plow and truck from damage when obstacles are encountered.

Adjustable Trip Springs

Adjustable BOSS trip springs let the operator adjust the trip-edge tension according to the job at hand.

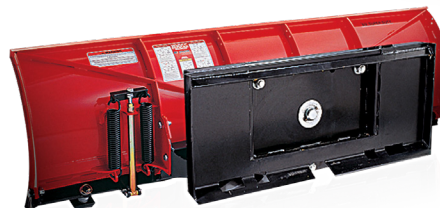

OPTIONAL ACCESSORIES

- Snow Deflector
- Wing Extensions
- Turf Defenders

8' Super-Duty Trip-Edge Steel Skid Steer

Features a universal coupler that attaches to most skid steer attachment systems.

QUICKCUBE®

INNOVATED FOR EFFICIENCY.

The BOSS QuickCube® brings efficiency to new heights. With the ability to hold up to 1,000 lbs of deicing material and the ability to double as a storage system, the BOSS QuickCube® system increases profitability while decreasing operational costs.

IMPROVES RESPONSE TIME

WEATHER-RESISTANT AND STACKABLE DESIGN

1,000 LB MATERIAL CAPACITY

SEE IT IN ACTION

QUICKCUBE® BENEFITS

Improve Response Time by staging a skid steer and QuickCube® system at the job site for lightning fast response time.

Reduce Fuel Costs and Truck Wear and Tear by diminishing the transportation of salt and deicing materials.

A Weather-Resistant and Stackable Design has each cube holding about 1,000 pounds of salt, eliminating the need for remote piles, tarps and temporary shelters.

Expand Your Labor Pool by hiring skid steer operators rather than truck drivers. Always check local laws regarding licensing.

Load Simply and Easily using a skid steer bucket to fill two QuickCube® units simultaneously.

Transport Loaded Cubes ahead of time while the weather is good to reduce the risk of truck travel on snowy, icy days.

TIME SAVER

With 1,000 pounds of material capacity stored at the job site, there's no need to make multiple trips to refill spreaders at base camp.

MODELS & SPECIFICATIONS

SPECS	MODEL
	QuickCube®
Cube Capacity	.5 cu yd (0.38 cu m)
Cube Height	38" (97 cm)
Cube Length	38" (97 cm)
Cube Width	46" (117 cm)
Spreading Width	2' - 40' (0.6 m - 12 m)
Cube Weight (Empty)	100 lb (45 kg)

SCAN FOR FULL SPECIFICATIONS

The selection of proper deicing materials can be complex and varies by personal preference, experience and environmental concerns. All factors should be considered before making your selection.

QuickCube® Spreader Attachment

BACKHOE BOX PLOW PUSH THROUGH IT.

Powerful BH box plows from BOSS ensure you always bring your best to the job site. The BH box plow attaches quickly and easily to backhoes, allowing you to RESTORE ORDER to your community.

SEGMENTED TRIP-EDGE WITH AGGRESSIVE ATTACK ANGLE MOVES SNOW AND REDUCES RESISTANCE

SELF-ADJUSTING BOX WINGS

ADJUSTABLE HEAVY-DUTY TRIP SPRINGS

STANDARD FEATURES

High-Efficiency Moldboard features a 70-degree attack angle that “rolls” the snow and reduces resistance.

Exclusive Self-Adjusting Box Wings automatically adjust to the contour of the pavement.

Floating Bucket Attachment System attaches quickly and easily with a bucket receiver that floats on replaceable wear shims to prevent binding.

Segmented Trip-Edge Design is engineered so each cutting edge segment trips individually.

Adjustable Heavy-Duty Trip Springs are tough, tested and proven in some of the harshest environments.

Robust Support Struts pivot for structural strength, stability and long-term durability.

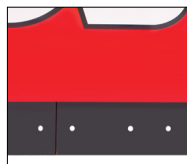

AR450 Wing Shoes provide superior wear resistance for long-term durability.

Universal Fork Mount is designed to attach quickly and easily with a simple slide.

OPTIONAL ACCESSORY

Universal Box Plow Coupler Kit

Segmented Trip-Edge is engineered so each cutting edge segment trips individually.

Adjustable, Heavy-Duty Trip Springs are torture-tested and allow the operator to adjust trip-edge tension according to the job at hand.

MODELS & SPECIFICATIONS

SPECS	MODEL
