

Condor Rakes - Faza

RATEAU SOLEIL

HEAVY DUTY V-RAKES

“CONDOR” belongs to a wide range of FAZA rakes. It is equipped with hydraulic system, which adjust both the wheel’s lifting and working width. It is especially suitable for working in extended grounds.

The machine is built of high resistance tubular steel, which makes it reliable in any working condition. Tines are 7-mm diameter.

Easy transport with space reduced to bare minimum.

Technical Specifications	RVT 10	RVT 12	RVT 14	RVT 16

RATEAUX FANEURS TRAINÉS

Faza pull type rakes mod. RT/7 and RT/9 rakes are specially designed to operate in rough soils, combining accuracy and speed to their superior hay handling abilities. Each wheel is individually suspended from the others and from the frame, allowing the finger wheels to follow the contours of the ground.

Les rateaux trainés FAZA mod. RT/ 7 and RT/ 9 sont conçus pour travailler des terrains irréguliers en garantissant un parfait travail et vitesse unis à une grande habileté en le travail de la fenaison. Chaque étoile est indépendante de l'autre et du châssis, pour permettre aux bras de suivre les contour du terrain.

Mod.	Working Width largeur de travail cm	Transport Dim. dim. de transport cm	Dim Wheel dim. étoile mtr	Wheel roves kg	Weight poids	# of Tines per Wheel # des dents pour étoile
RT - 7	500	300	1.4	2	540	40
RT - 9	580	360	1.4	2	620	40
RT - 7 / 3R	500	300	1.4	3	580	40
RT - 9 / 3R	580	360	1.4	3	660	40

RATEAU-FANEUR PORTÉ

Faza mounted hay rakes have a strong tubular frame. The easy adjustments of the hitch and independent floating arms assure the best operation, following the ground contours. Wheel hubs are fitted with adjustable and perfectly sealed double conical roller bearings

Les rateaux faneurs portés Faza, de la série "PR" ont une structure tubulaire très résistante. Les réglages de l'attelage et les bras porte étoiles oscillants, facilitent les différentes opérations et permettent un travail rapide et soigné s'adaptant à tout type de terrain. Les moyeux porte étoiles sont montés sur des roulements à double rouleaux conique réglables et parfaitement protégés.
